

# Fly Road Repaving Project Syracuse (C.R. 77)

Onondaga County, New York

• As Prime Consultant, BRYANT ASSOCIATES is performing the preliminary and final design for this 1.0 mile roadway rehabilitation LDSA project. Work includes a Multi-course overlay, shoulder rehabilitation, replacement of the heavy duty shoulders at all intersections, and a fiber reinforced pavement treatment applied to the entire pavement surface for additional durability. Bryant developed a IPP/FDR design report, a complete environmental screening, accident analysis, and Project Submittal Package.

## Owner/Client

ONONDAGA COUNTY  
DEPARTMENT OF  
TRANSPORTATION
